ABOUT

NOAH INFRASTRUCTURES is a Construction Firm started in 2003, now headed by Er. M. Cibi Jacob, M.Tech., (IIT-Delhi) and Ar. M. Simeon Moses (M.Arch., Lond.,). We have engaged in construction of large scale projects. Educational buildings, Factories, Community Buildings, Office Buildings, to its smallest commissions of furniture. We have numerous experiences in construction of steel structures, Rcc structures, Pre-Engineered buildings, Lightweight structures, composite structures and retrofitting works. We have done wide range of successful projects with satisfied clients for these many years.

VISION

Noah Infrastructure will be a conscientiously managed Indian global enterprise dedicated to complete consumer fulfilment and maximizing corporate value. Noah will nurture a supportive, honest and accountable workplace culture while surpassing the expectations of clients, staff members and the community.

MISSION

Surpass client expectations on an ongoing basis by leveraging engineering competencies, interior contracting expertise, and an innovative mindset in all projects, regardless of scale, complexity, or time.

Mr. Cibi Jacob is the managing partner of Noah Infrastructures. After completing his civil engineering degree from the College of Engineering at Anna University, Guindy, Chennai, he went on to complete his master's in structural engineering from the prestigious Indian Institute of Technology (IIT), Delhi. He began his humble career with Larsen & Toubro's Construction Division, where he was involved in the design and construction of large-scale industrial projects. Under his dynamic leadership and client-centric approach, the company has created a track record of successful projects in a very short time span. "Honesty is the best policy" is the guiding principle of Mr. Cibi Jacob, which he inherited from his forefathers. He religiously follows this policy to satisfy his clients.

Mr. Simeon Moses, the visionary behind Noah Infrastructures, is a qualified architect and holds a Master's degree in Interior Design from the University of Westminster, UK. He started his humble career working under Ar Piyush Prakash, New Delhi, and Ar Cheralathan, Chennai. He joined hands with his brother with indomitable will and burning passion to build a world-class property development company with a foundation built on quality, speed, transparency, and competitive pricing. He also built great alliances with architects and project management companies and worked with them for civil and interior construction needs. He travels extensively around the world and imports the latest and most innovative furniture and world-class construction materials for projects. He keeps himself updated with the latest products and construction techniques around the globe. Mr. M. Simeon Moses believes and follows the phrase "Do as you would like to be done by Jesus Christ," which enables him to reach new heights in every project he takes on.

Under Noah Infrastructures, we have Jacob Engineers and CIBI+SIMEON Designs since they offer all types of construction services including structural engineering, structural forensics, construction support, retrofitting, interior designing, architectural designing, contracting services etc. and by combining all services under one roof, they make clients' jobs easier.

CIBI+SIMEON
Designs
