NOAH INFRASTRUCTURES
AN EPC COMPANY

## ABOUT

NOAH INFRASTRUCTURES now headed by Er. M. CIBI JACOB, M.Tech., (IIT-Delhi), and Ar. M. SIMEON MOSES, M.Arch., (University of Westminster, UK). With strong foundations in Civil/Structural Engineering and Modern Architecture, their leadership has enabled Noah Infrastructures to successfully deliver several landmark projects, establishing a solid reputation for excellence and reliability.

Noah Infrastructures has engaged in the construction of large-scale projects, including Educational Buildings, Factories, Community Buildings, Office Buildings, and Residential Bungalows & Flats. The company also has extensive experience in constructing Steel Structures, RCC Structure Pre-Engineered Buildings, Lightweight Structures, Composite Structures, and Retrofitting Works.

With over two decades of experience, the company has carved a niche for itself among discerning clients through innovative design, superior quality, exceptional workmanship, timely project completion, and the successful possession of numerous projects.

Noah Infrastructures draws its strength from a dedicated and quality-conscious workforce that fully understands and executes the comprehensive scope of activities necessary to ensure complete client satisfaction.

## VISION

Noah Infrastructure will be a conscientiously managed Indian global enterprise dedicated to complete consumer fulfilment and maximizing corporate value. Noah will nurture a supportive, honest, and accountable workplace culture while surpassing the expectations of clients, staff members, and the community.

## MISSION

Surpass client expectations on an ongoing basis by leveraging engineering competencies, interior contracting expertise, and an innovative mindset in all projects, regardless of scale, complexity, or time.

# DIRECTORS

**Mr. Cibi Jacob** is the managing partner of Noah Infrastructures. After completing his civil engineering degree from the College of Engineering at Anna University, Guindy, Chennai, he went on to complete his master's in structural engineering from the prestigious Indian Institute of Technology (IIT), Delhi. He began his humble career with Larsen & Toubro's Construction Division, where he was involved in the design and construction of large-scale industrial projects. Under his dynamic leadership and client-centric approach, the company has created a track record of successful projects in a very short time span. "Honesty is the best policy" is the guiding principle of Mr. Cibi Jacob, which he inherited from his forefathers. He religiously follows this policy to satisfy his clients.

**Mr. Simeon Moses**, the visionary behind Noah Infrastructures, is a qualified architect and holds a Master's degree in Interior Design from the University of Westminster, UK. He started his humble career working under Ar Piyush Prakash, New Delhi, and Ar Cheralathan, Chennai. He joined hands with his brother with indomitable will and burning passion to build a world-class Infrastructures company with a foundation built on quality, speed, transparency, and competitive pricing. He also built great alliances with architects and project management companies and worked with them for civil and interior construction needs. He travels extensively around the world and imports the latest and most innovative furniture and world-class construction materials for projects. He keeps himself updated with the latest products and construction techniques around the globe. Mr. M. Simeon Moses believes and follows the phrase "Do as you would like to be done by"- Jesus Christ," which enables him to reach new heights in every project he takes on.
